

TECHNICAL ANALYSIS

About Us

Fortunity Academy have multiple years of trading exposure in Indian Stock Markets. After reading multiple books on trading mindset, trading psychology listening to many podcasts of successful day traders and hedge fund managers we have tried to decode the actual reason why 95% of the retail traders across the world end up making losses.

It's actually no surprise because it is on par with the general terms that the wealthiest people of 5% in the world control the remaining population. It is because only those 5% of the people are the ones who do something different and go through the phase of real learning and discipline.

Our Vision

Our Vision is to teach, train, and support a trader / investor journey to move from the 95% of losing crowd to the premium 5% of the winning & disciplined people. We know that it requires a lot of commitment from the trader / investor themselves.

We believe strongly that “Investing / Trading is less than 20% fundamental / technical analysis & more than 80% Psychology”. Trading Psychology includes mindset, affirmations, meditation, emotional control, and finding a trading edge that suits your personality.

About Technical Analysis

Technical analysis is a trading discipline employed to evaluate investments and identify trading opportunities by analyzing statistical trends gathered from trading activity, such as price movement and volume.

Technical analysis tools are used to scrutinize the ways supply and demand for a security will affect changes in price, volume, and implied volatility. It operates from the assumption that past trading activity and price changes of a security can be valuable indicators of the security's future price movements when paired with appropriate investing or trading rules.

Professional analysts often use technical analysis in conjunction with other forms of research. Retail traders may make decisions based solely on the price charts of a security and similar statistics, but practicing equity analysts rarely limit their research to fundamental or technical analysis alone.

Why should one Take this Course?

- To have a basic understanding about technical analysis.
- To learn the various valuation methodologies.

TECHNICAL ANALYSIS

Course Content

INTRODUCTION TO TECHNICAL ANALYSIS

What is technical analysis?
The basis of technical analysis
Difference between technical vs fundamental analysis
Game Theory by Dr. John Nash
Psychology of Human Behaviour in Trading & Investments
Risk Management, Rules and Tools for Trading

TYPE OF CHARTS

Introduction about chart
The various types of price charts

- Line chart
- Bar chart
- Candlestick chart

TREND LINES

What is the purpose of drawing trend lines?
How to plot trend lines

CANDLESTICK STUDY

Course Content

ONE CANDLE STICK PATTERN

- Doji
- Hammer / Hanging Man
- Inverted Hammer / Shooting Star
- Spinning Top
- Marubozu

DOUBLE CANDLE STICK PATTERN

- Bullish /Bearish Engulf
- Bullish /Bearish Harami
- Piercing pattern /Dark cloud cover
- Tweezer Top & Bottom

Course Content

TRIPLE CANDLE STICK PATTERN

- Morning star / Evening star
- Three white shoulders / Three black crows
- Abandoned body (Bullish & Bearish)
- Tasuki Gap (Bullish & Bearish)

SUPPORT & RESISTANCE

- What is Support?
- What is Resistance?
- Change of support to resistance and vice versa

CHARTS PATTERNS & THEIR STUDY

Course Content

CHART PATTERNS

Head & Shoulder

Inverted
Head & Shoulder

Double
top / bottom

Flag & Pennant

Cup & Handle

Symmetrical,
Ascending,
Descending Triangles

Wedge Patterns

Rounding
top / bottom

Rectangles
Bullish / Bearish

Triple
top / bottom

Course Content

GAPS & GAPS ANALYSIS

Common gap

Runaway gap

Exhaustion gap

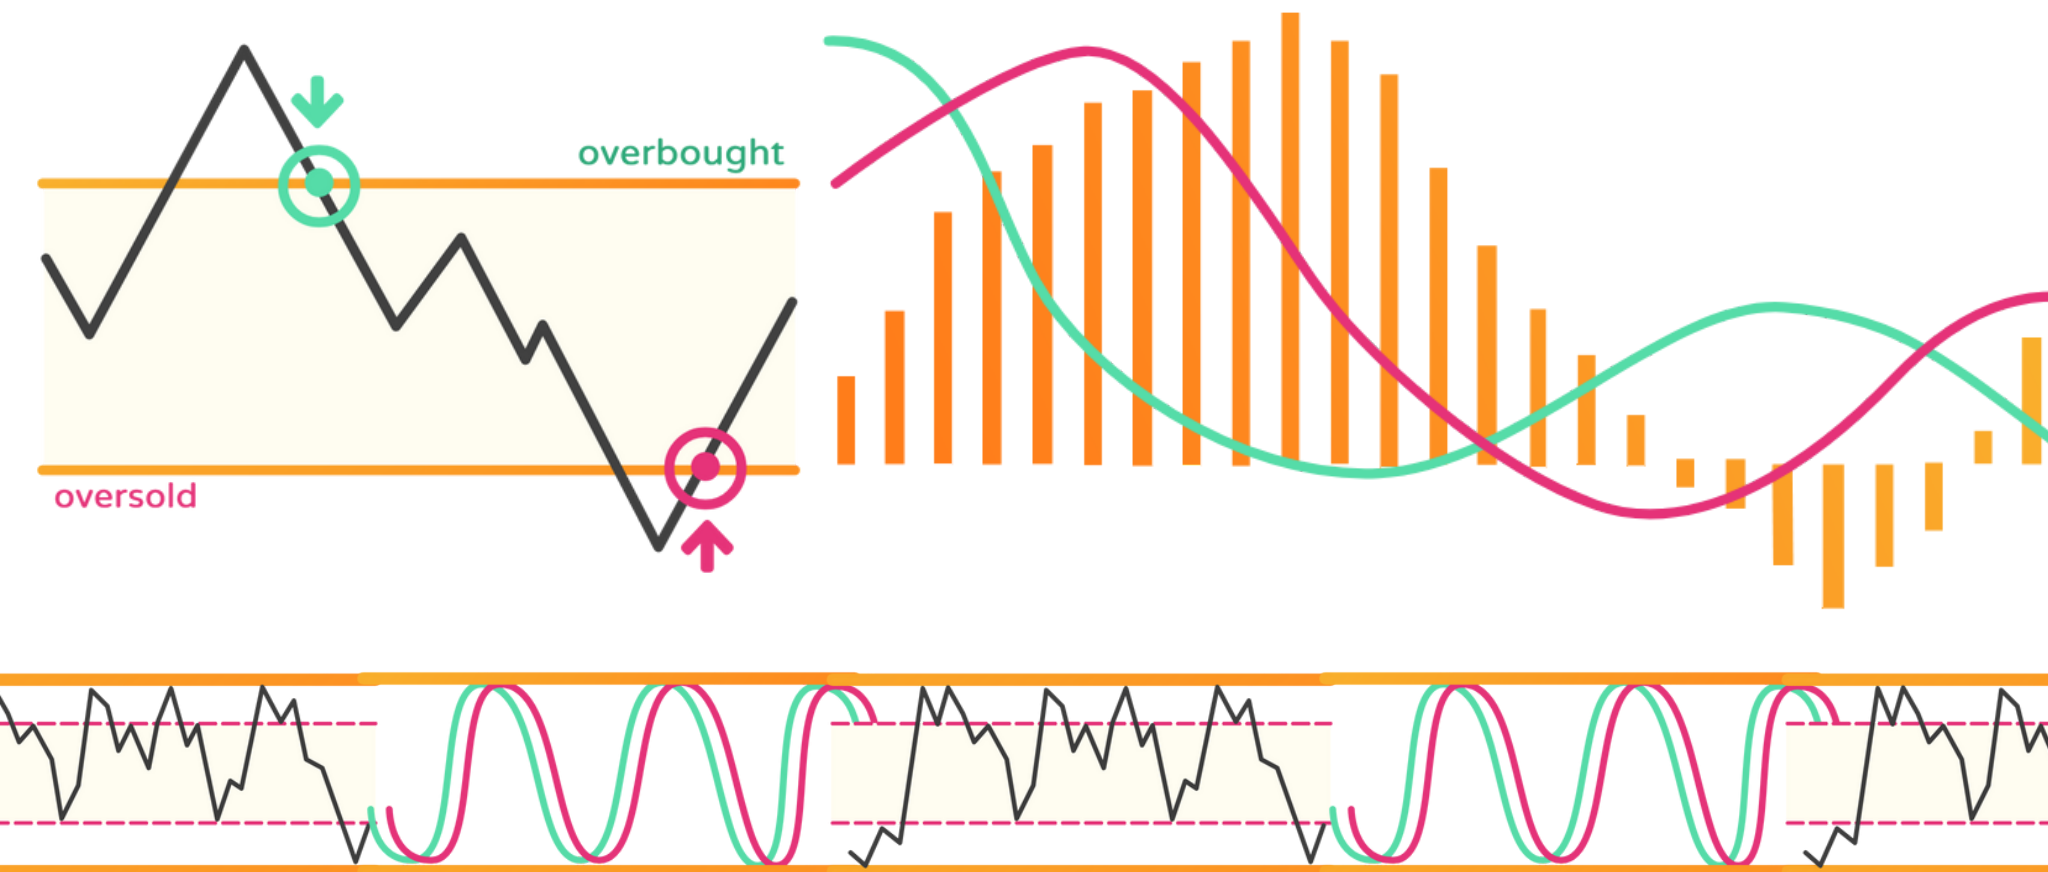

Breakaway gap

Island cluster

OSCILLATORS & INDICATORS

Course Content

MOVING AVERAGES

Simple moving average (SMA)
Exponential moving average (EMA)
How to trade on moving averages?

MACD

What is the MACD and how is it calculated?
How to trade on MACD?

RELATIVE STRENGTH INDEX

What is momentum?
Calculation of the RSI
Divergence
How to trade on RSI?

Course Content

STOCHASTIC

Overview
Construction
How to trade on stochastic?

WILLIAM %R

Overview
Signals
How to trade on William %R?

BOLLINGER BANDS

Few rules for beginners
How to trade on bb
How to use multiple indicator?

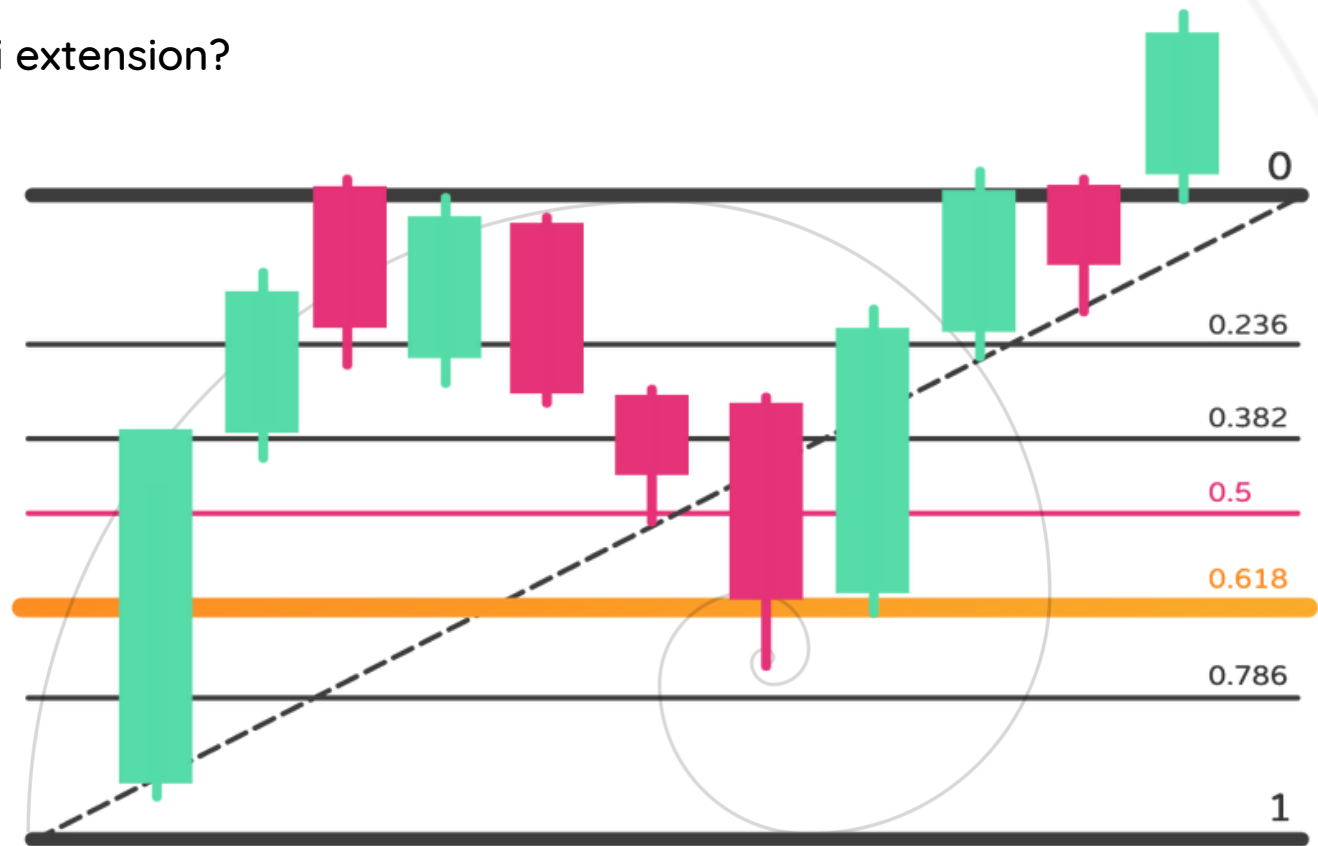

TRADING STRATEGY

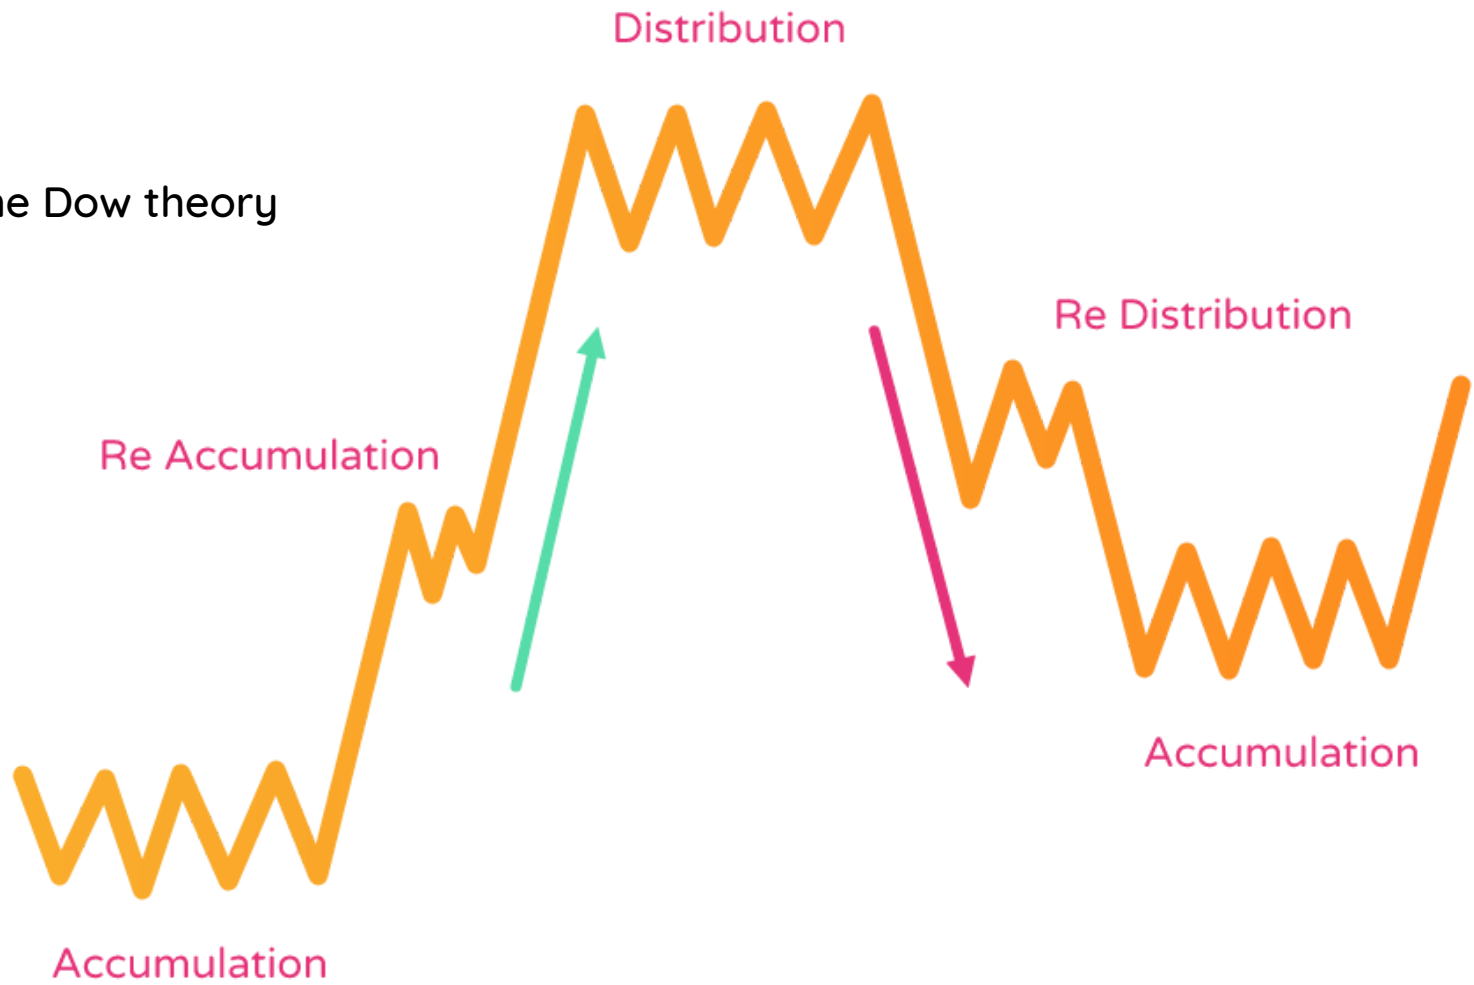

FIBONACCI SEQUENCE

- How to trade on Fibonacci retracement?
- How to trade on Fibonacci extension?

DOW THEORY

- Background
- Principal rule of the Dow theory

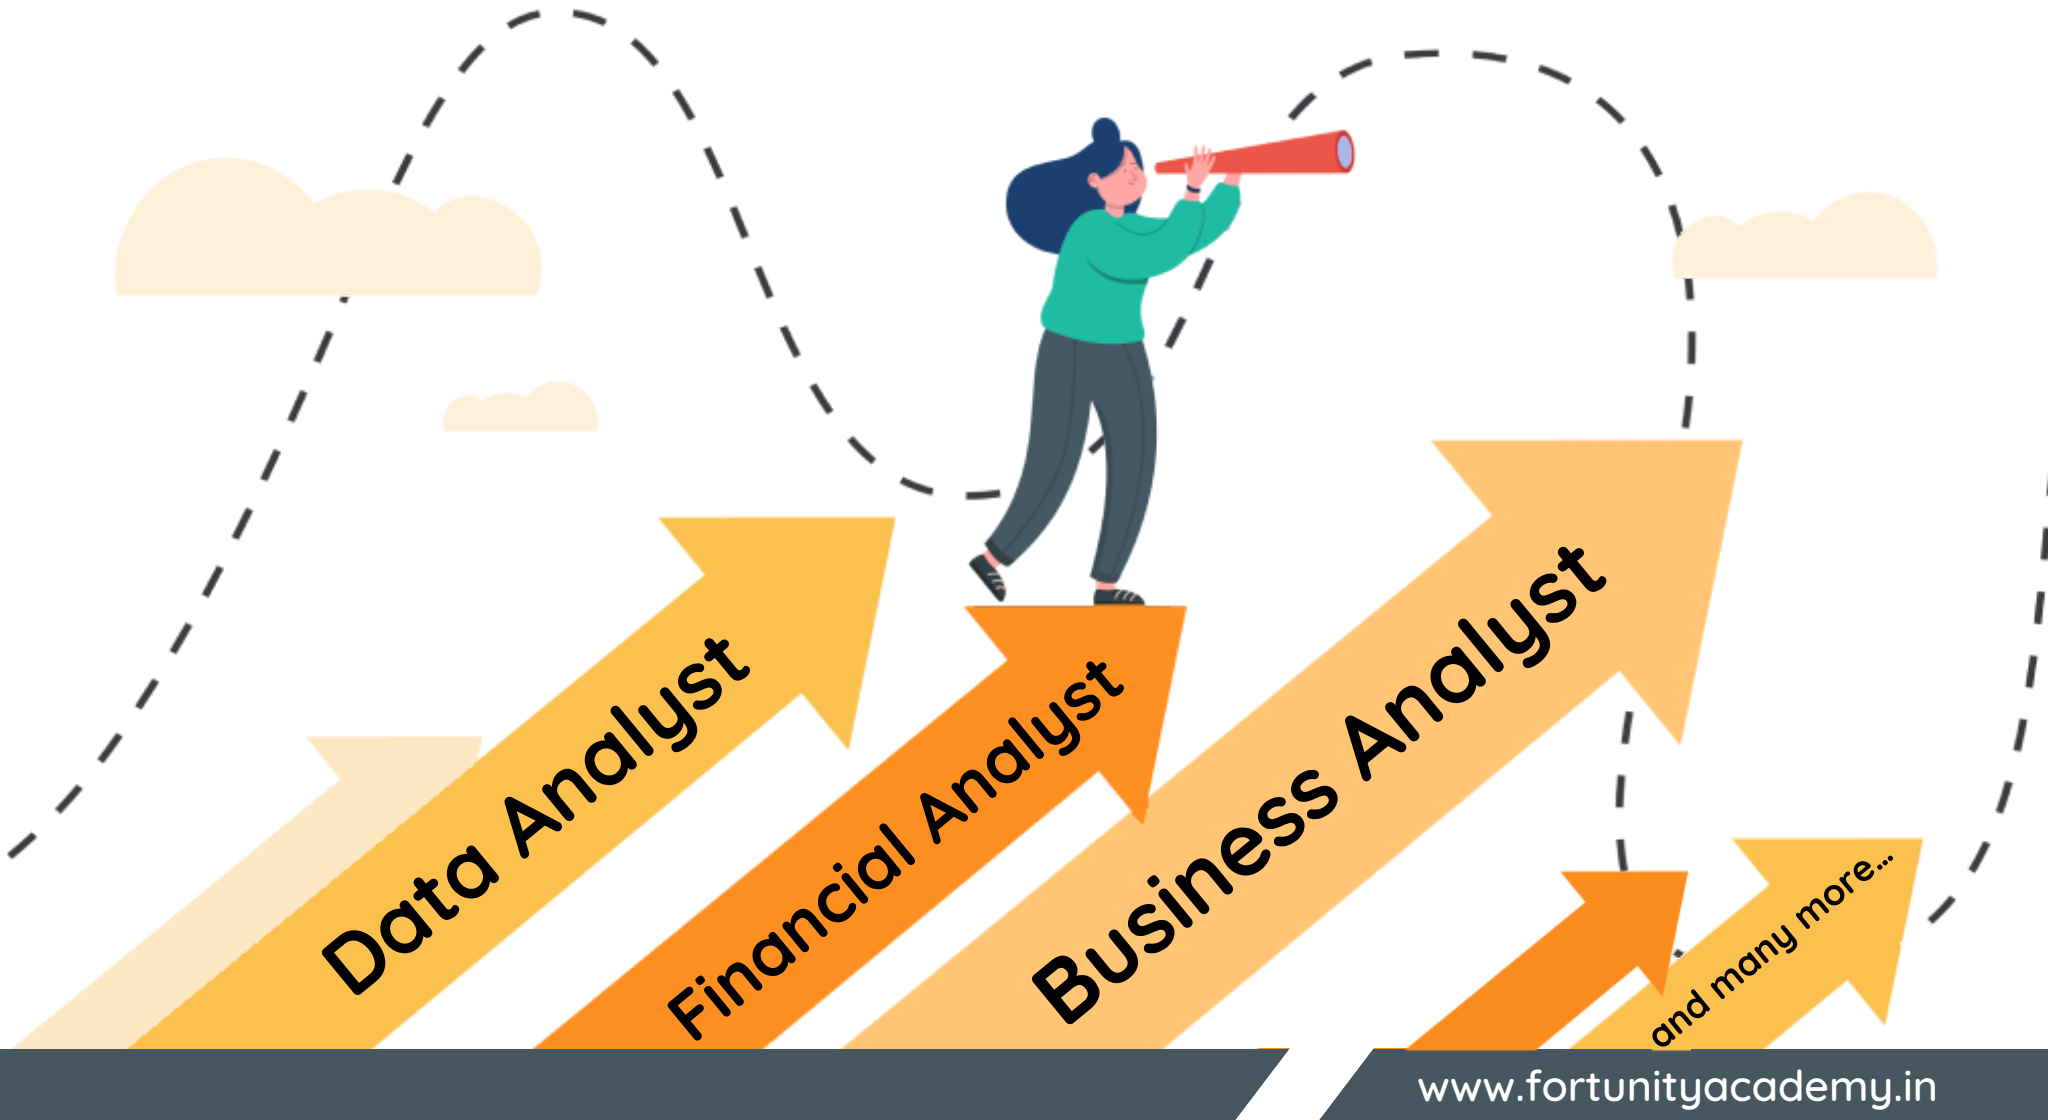

Who will Benefit from this course?

- Students of Management and Commerce
- Finance Professionals
- Stock Analysts
- Anybody having interest in this subject

Career Opportunities

Program Analysis

Be a expert / professional in
Financial Market and
stock market in 6 month.

Live assignments, projects,
case studies of stock market.

Practice online on mock
test papers.

Practical on live software's
used in trading and research.

If Student missed his/her
classes can attend in
other running batches.

Doubt solving sessions
will be held.

NISM/NCFM Exam Preparation

Research Analysis
(NISM certification preparation)

Technical Analysis module
(NCFM Certification Preparation)

Equity Derivatives
(NISM certification preparation)

Option & future strategy
(NSE certification preparation)
